### Non-GAAP Financial Measure

In addition to net (loss)/income, we also use adjusted net income (non-GAAP financial measure) to evaluate our business. We define adjusted net income (non-GAAP financial measure) as net (loss)/income excluding share-based compensation expenses. Share-based compensation expenses are non-cash in nature and do not result in cash outflow.

We have included this non-GAAP financial measure because it is a key measure used by our management to evaluate our operating performance, as it facilitates comparisons of operating performance from period to period. Accordingly, we believe that it provides useful information to investors and others in understanding and evaluating our operating results in the same manner as our management does.

The non-GAAP financial measure is not presented in accordance with U.S. GAAP and may be different from non-GAAP methods of accounting and reporting used by other companies. The non-GAAP financial measure has limitations as an analytical tool and when assessing the Company's operating performance, investors should not consider it in isolation or as a substitute for our financial information prepared in accordance with U.S. GAAP. The Company encourages investors and others to review its financial information in its entirety and not rely on a single financial measure.

The table below sets forth an unaudited reconciliation of our net (loss)/income to adjusted net income (non-GAAP financial measure) for the periods indicated:

### Sales and Marketing Expenses

Our sales and marketing expenses increased by 3.0% from RMB1.9 billion in 2021 to RMB2.0 billion in 2022, primarily due to increased employee-related expenses and increased brand advertising expenses mainly resulting from the marketing campaigns during the 2022 FIFA World Cup, partially offset by decreased customer acquisition cost.

# MANAGEMENT DISCUSSION AND ANALYSIS

## General and Administrative Expenses

## MANAGEMENT DISCUSSION AND ANALYSIS

### Foreign Exchange Exposure

Substantially all of our revenues and the majority of our expenses are denominated in RMB. The majority of our cash and cash equivalents are denominated in U.S. dollars. We have not used any derivative financial instruments to hedge exposure to such risk. However, we monitor our currency risk exposure by periodically reviewing foreign currency exchange rates and will consider hedging significant foreign currency exposure should the need arise. To the extent that we need to convert U.S. dollars into RMB for our operations, appreciation of the RMB against the U.S. dollar would have an adverse effect on the RMB amount we receive from the conversion. Conversely, if we decide to convert RMB into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs or for other business purposes, appreciation of the U.S. dollar against the RMB would have a negative effect on the U.S. dollar amounts available to us.

### Contingent Liabilities

The Company had no material contingent liabilities as of December 31, 2022.

### Capital Expenditure Commitment

The Company had no material capital expenditure commitment as of December 31, 2022.

### Employees and Remuneration Policies

Operations	1,255	22.4%
General administration	281	5.0%
<b>Total</b>	5,602	100.0%

As part of our retention strategy, we offer employees competitive salaries, incentive share grants and other incentives. The Group participates in various government statutory employee benefit plans, including social insurance, namely pension insurance, medical insurance, unemployment insurance, work-related injury insurance and maternity insurance, and housing funds. # DIRECTORS' REPORT

## PRINCIPAL RISKS AND UNCERTAINTIES

Our business involves certain risks as set out in the section headed “Risk factors” in the Listing Document and the Form 20-F for the year ended December 31, 2022 filed with the United States Securities and Exchange Commission. The following list is a summary of certain principal risks and uncertainties facing by the Group, some of which are beyond our control.

- If we fail to implement new technologies, develop and provide innovative features and services, respond to evolving user preferences, enhance user friendliness of our online recruitment platform, or optimize our technology systems, we may not be able to improve user experience, which may have a material and adverse effect on our user growth and retention, business, financial condition and results of operations.
- Our business depends on the continued success of our brands, and if we fail to maintain and enhance the recognition of our brands cost-effectively, or the recognition of our brands is adversely affected by any negative publicity concerning us or our Directors, management, Shareholders or business partners, our reputation and operating results may be harmed.
- We face significant competition in China’s dynamic online recruitment service market, and potential market entries by established players from other industries may make competition even more fierce. Our market share, financial condition and results of operations may be materially and adversely affected if we are unable to compete effectively.
- If our technology capabilities fail to yield satisfactory results or fail to improve, our online recruitment platform may not be able to effectively match our job seekers with suitable enterprise users or to optimally recommend services for our users, and our user growth, retention, results of operations and business prospects may suffer consequently.
- A slowdown or adverse development in the Chinese or global economy may lower the hiring willingness and budget of our current and potential enterprise users, adversely affecting the demand for our services and our business in general.
- Our users may engage in intentional or negligent misconduct or other improper activities on our online recruitment platform or otherwise misuse our online recruitment platform, which may damage our brand image and reputation, our business and our results of operations.
- Because we store and process data, some of which contains sensitive personal information, we face concerns over the collection, improper use or disclosure of personal information, which could deter current and potential users from using our services, damage our reputation, result in legal liability, bring regulatory scrutiny, and in turn materially and adversely affect our business, financial condition and results of operations.
- Our business is subject to complex and evolving laws and regulations of mainland China. Any failure or perceived failure to comply with these laws and regulations could result in penalties, claims, changes to our business practices, negative publicity, legal proceedings, increased cost of operations, or declines in user growth or engagement, or otherwise harm our business.

## DIRECTORS' REPORT

- Changes in China's economic, political or social conditions or government policies could have a material and adverse effect on our business and results of operations.
- Uncertainties with respect to the PRC legal system could adversely affect us.
- The PRC government's oversight and discretion over our business operations could result in a material adverse change in our operations and the value of our Class A Ordinary Shares and/or ADSs.
- The approval of or filing and reporting with the China Securities Regulatory Commission or other PRC government authorities may be required in connection with our overseas offerings under laws of mainland China, and, if required, we cannot predict whether or for how long we will be able to obtain such approval or complete such filing and reporting procedures.
- The PCAOB had historically been unable to inspect our auditor in relation to their audit work performed for our financial statements and the inability of the PCAOB to conduct inspections over our auditor in the past has deprived our investors with the benefits of such inspections.
- Our ADSs may be prohibited from trading in the United States under the HFCAA in the future, if the PCAOB is unable to inspect or investigate completely auditors located in China. The delisting of the ADSs, or the threat of their being delisted, may materially and adversely affect the value of your investment.
- The trading price of the ADSs has been and may be, and the trading price of our Class A Ordinary Shares can be, volatile, which could result in substantial losses to investors.
- Our dual-class voting structure will limit your ability to influence corporate matters and could discourage others from pursuing any change of control transactions that holders of our Class A Ordinary Shares or ADSs may view as beneficial.
- The dual-class structure of our ordinary shares may adversely affect the trading market for our Class A Ordinary Shares and/or ADSs.
- If securities or industry analysts do not publish research or publishes inaccurate or unfavorable research about our business, or if they adversely change their recommendations regarding our Class A Ordinary Shares or ADSs, the market price for our Class A Ordinary Shares or ADSs and trading volume could decline.

In consideration of the services provided by Beijing Glory Wolf, Beijing Huapin Borui shall pay service fee to Beijing Glory Wolf. Pursuant to the Exclusive Technology and Service Co-operation Agreement, the service fees shall be equivalent to the total consolidated profit of Beijing Huapin Borui and its subsidiaries, after offsetting the prior-year loss (if any), operating costs, expenses, taxes and other statutory contributions. Notwithstanding the foregoing, Beijing Glory Wolf shall have the right to adjust the level of the service fees by taking into account such factors as (a) the complexity and difficulty of the services involved, (b) the time taken for the services, (c) the scope of management and technical consulting and other services and their commercial value, (d) the scope of intellectual property licensing and leasing services and their commercial value, and (e) the market reference price for services of similar kinds. Beijing Huapin Borui shall pay the service fees to Beijing Glory Wolf within 30 business days after given payment instructions by Beijing Glory Wolf.

### **Exclusive Purchase Option Agreement**

Beijing Glory Wolf, the Registered Shareholders and Beijing Huapin Borui entered into an exclusive purchase option agreement on September 30, 2022, pursuant to which Beijing Glory Wolf, or its offshore parent company or its directly or indirectly owned subsidiaries was granted an irrevocable and exclusive right by the Registered Shareholders to purchase from each of the Registered Shareholders all or any part of their respective equity interest in Beijing Huapin Borui.

## DIRECTORS' REPORT

The purchase price payable by Beijing Glory Wolf or its designee in respect of the transfer of the entire equity interest and/or the total assets of Beijing Huapin Borui shall be the nominal price, or the minimum price required by competent PRC authorities or PRC laws. However, in any event, subject to the provisions and requirements of PRC laws, the price paid by Beijing Glory Wolf and/or its designee to Beijing Huapin Borui and/or Registered Shareholders at any such price shall be returned by Beijing Huapin Borui and/or Registered Shareholders to Beijing Glory Wolf at the time and in the form requested by Beijing Glory Wolf.

The Exclusive Purchase Option Agreement shall remain effective for ten years with Beijing Glory Wolf having the option to renew it until all the equity interest in and/or all assets of Beijing Huapin Borui has been transferred to Beijing Glory Wolf and/or its designee (registration has been completed for the change of members) and Beijing Glory Wolf and its subsidiaries and branches can legally engage in the business of Beijing Huapin Borui.

### **Equity Pledge Agreement**

Beijing Glory Wolf, the Registered Shareholders and Beijing Huapin Borui entered into an equity pledge agreement on September 30, 2022, pursuant to which each of the Registered Shareholders agreed to pledge all of their respective equity interests in Beijing Huapin Borui to Beijing Glory Wolf as a security interest to guarantee performance of their contractual obligations under the Contractual Arrangements and all liabilities, monetary debts or other payment obligations arising out of or in relation with the Contractual Arrangements.

The Equity Pledge Agreement shall remain effective until, among others, Beijing Huapin Borui and the Registered Shareholders have recorded the release of such pledged equity interests in the register of members of Beijing Huapin Borui and completed relevant deregistration procedure.

### **Powers of Attorney**

Pursuant to the proxy agreement entered into by Beijing Huapin Borui, the Registered Shareholders and Beijing Glory Wolf, each of the Registered Shareholders unconditionally and irrevocably agrees to appoint Beijing Glory Wolf and/or its designee as their sole and exclusive agent to act on their behalf on all matters concerning Beijing Huapin Borui and to exercise all of their rights as shareholder of Beijing Huapin Borui, including but not limited to: (1) to propose, convene and attend shareholders' meetings of Beijing Huapin Borui and sign minutes and resolutions of the shareholders' meeting on their behalf; (2) to exercise all shareholder rights that they are entitled to under PRC laws and the articles of association of Beijing Huapin Borui, including, but not limited to, the right to vote as a shareholder, and the right to sell or transfer or pledge or dispose of all or any part of their shareholding; and (3) acting as their authorized representative to elect, designate and appoint the legal representative, chairman, directors, supervisors, general manager and other senior executives of Beijing Huapin Borui. The Powers of Attorney will be terminated, among other things, under certain conditions when Beijing Glory Wolf or its designee is duly registered as the sole shareholder of Beijing Huapin Borui on the premise that PRC laws permits Beijing Glory Wolf, or its offshore parent company or any subsidiary directly or indirectly controlled by it, to directly hold equity interest in and legally engage in the business conducted by Beijing Huapin Borui.

Save as disclosed above, there were no other new contractual arrangements entered into, renewed and/or reproduced between our Group and our Consolidated Affiliated Entities during the Reporting Period. There was no material change in the Contractual Arrangements and/or the circumstances under which they were adopted during the Reporting Period.

## DIRECTORS' REPORT

For the Reporting Period, none of the Contractual Arrangements had been unwound on the basis that none of the restrictions that led to the adoption of the Contractual Arrangements had been removed. As of December 31, 2022, we had not encountered interference or encumbrance from any PRC governing bodies in operating our businesses through our Consolidated Affiliated Entities under the Contractual Arrangements.

The revenue of the Consolidated Affiliated Entities amounted to RMB4.5 billion for the Reporting Period, representing substantially all of the revenue of our Group. After intercompany eliminations, the total assets of the Consolidated Affiliated Entities amounted to RMB3.8 billion as of December 31, 2022, representing approximately 25.5% of the total assets of the Group.

### Reasons for Adopting the Contractual Arrangements

Our documentary and video production business, which falls within the scope of “radio and television program production and operation business”, conducted by our Consolidated Affiliated Entities are considered as “prohibited” under the Special Administrative Measures (Negative List) for Foreign Investment Access (2021 Edition) (外商投資准入特別管理措施(負面清單)(2021)) (the “**Negative List**”) where foreign investors are prohibited from holding equity interest in an enterprise engaging in radio and television program production and operation business (the “**Prohibited Business**”). Our internet information services provided by our Consolidated Affiliated Entities are considered as “restricted” under the Negative List where the ultimate shareholding percentage of a foreign investor in companies engaged in value-added telecommunications services (except for e-commerce, domestic multi-party communications, storage-forwarding and call centers) shall not exceed 50% pursuant to the Negative List (the “**Restricted Business**”, together with the Prohibited Business, the “**Relevant Businesses**”). For details of the foreign investment restrictions relating to the Contractual Arrangements, please refer to the sections headed “Contractual Arrangements – PRC Laws Restricting Foreign Ownership of the Relevant Businesses” and “Contractual Arrangements – Development in PRC Legislation on Foreign Investment” on pages 273 to 277 and page 292 of the Listing Document.

Since investment in the Relevant Businesses in which we currently and may operate are subject to restrictions under current mainland China laws and regulations, it was not viable for our Company to directly hold Beijing Huapin Borui and indirectly, through Beijing Huapin Borui, hold its subsidiaries through equity ownership and this company must be controlled by the Company through the Contractual Arrangements. Furthermore, since Beijing Huapin Borui operates both “prohibited business” and “restricted business” under the Negative List, we are unable to set up any alternative structure that would allow us to partially hold equity interests in and control the economic benefits of Beijing Huapin Borui other than through the Contractual Arrangements. In particular, the businesses carried on by Beijing Huapin Borui that require a value-added telecommunications business operating license for the provision of internet information services cannot be separated from the businesses that require a radio and television production operation licence.

Based on the above reasons, the Board is of the view that the Contractual Arrangements are narrowly tailored.

## DIRECTORS' REPORT

### **Risks Relating to the Contractual Arrangements and Actions Taken to Mitigate the Risks**

We believe the following risks are associated with the Contractual Arrangements. Further details of these risks are set out on pages 73 to 79 of the Listing Document.

- We are a Cayman Islands holding company with no equity ownership in the VIE and we conduct our operations in mainland China primarily through the VIE, with which we have maintained contractual arrangements. Investors in our Class A Ordinary Shares and ADSs thus are not purchasing equity interest in the VIE in mainland China but instead are purchasing equity interest in a Cayman Islands holding company. If the PRC government finds that the agreements that establish the structure for operating some of our operations in China do not comply with PRC laws and regulations relating to the relevant industries, or if these laws and regulations or the interpretation of existing laws and regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations.
- The contractual arrangements with the VIE and its shareholders may not be as effective as direct ownership in providing operational control.
- Any failure by the VIE or its shareholders to perform their obligations under our contractual arrangements with them would have a material and adverse effect on our business.
- The shareholders of the VIE may have actual or potential conflicts of interest with us.
- Contractual arrangements in relation to the VIE may be subject to scrutiny by the PRC tax authorities and they may determine that we or the VIE owes additional taxes, which could negatively affect our financial condition and the value of your investment.
- Our current corporate structure and business operations may be substantially affected by the newly enacted Foreign Investment Law.
- We may lose the ability to use and enjoy assets held by the VIE that are critical to the operation of our business if the VIE declare bankruptcy or become subject to a dissolution or liquidation proceeding.

## DIRECTORS' REPORT

The structuring and implementation of the Contractual Arrangements, including the detailed terms of the Contractual Arrangements, as discussed herein, is designed to mitigate these risks.

Our Group has adopted the following measures to ensure the effective operation of our Group with the implementation of the Contractual Arrangements and our compliance with the Contractual Arrangements:

- (i) major issues arising from the implementation and compliance with the Contractual Arrangements or any regulatory enquiries from government authorities have been submitted to our Board, if necessary, for review and discussion on an occurrence basis;
- (ii) our Board has reviewed the overall performance of and compliance with the Contractual Arrangements for the Reporting Period;
- (iii) our Company has disclosed the overall performance of and compliance with the Contractual Arrangements in our annual reports; and
- (iv) our Company will engage external legal advisers or other professional advisers, if necessary, to assist the Board to review the implementation of the Contractual Arrangements, review the legal compliance of Beijing Glory Wolf and our Consolidated Affiliated Entities to deal with specific issues or matters arising from the Contractual Arrangements.

The Company also undertakes to restructure its Contractual Arrangements, including to adjust the equity interest held through its Contractual Arrangements when required by the relevant governmental authority, to comply with the latest PRC regulations, including the Decision of the State Council on Amending or Abolishing Certain Administrative Regulations, which came into effect on May 1, 2022.

## DIRECTORS' REPORT

### **The Foreign Investment Law**

On March 15, 2019, the National People's Congress approved the Foreign Investment Law which became effective on January 1, 2020. On December 26, 2019, the State Council promulgated the Implementation Regulations on the Foreign Investment Law (《外商投資法實施條例》), which came into effect on January 1, 2020. The Foreign Investment Law replaced the Law on Sino-Foreign Equity Joint Ventures, the Law on Sino-Foreign Contractual Joint Ventures and the Law on Foreign-Capital Enterprises to become the legal foundation for foreign investment in the PRC. The Foreign Investment Law stipulates certain forms of foreign investment, but does not explicitly stipulate contractual arrangements as a form of foreign investment. The Implementation Regulations on the Foreign Investment Law are also silent on whether foreign investment includes contractual arrangements.

Conducting operations through contractual arrangements has been adopted by many PRC-based companies, including our Group. We use the Contractual Arrangements to establish control of the Consolidated Affiliated Entities, by WFOE, through which we operate our business in the PRC. The Foreign Investment Law stipulates that foreign investment includes "foreign investors invest in China through any other methods under laws, administrative regulations or provisions prescribed by the State Council" without elaboration on the meaning of "other methods". The Implementation Regulations on the Foreign Investment Law are also silent on whether foreign investment includes contractual arrangements. There are possibilities that future laws, administrative regulations or provisions prescribed by the State Council may regard contractual arrangements as a form of foreign investment, at which time it will be uncertain whether the Contractual Arrangements will be deemed to be in violation of the foreign investment access requirements and how the above-mentioned Contractual Arrangements will be handled. Therefore, there is no guarantee that the Contractual Arrangements and Relevant Businesses will not be materially and adversely affected in the future due to changes in PRC laws.

## WEIGHTED VOTING RIGHTS

The Company has adopted a weighted voting rights structure. Under this structure, the Company's share capital comprises Class A Ordinary Shares and Class B Ordinary Shares; each Class A Ordinary Share entitles the holder to exercise one vote, and each Class B Ordinary Share entitles the holder to exercise ten votes, on any resolution tabled at the Company's general meetings, except for resolutions with respect to the Reserved Matters, in relation to which each Share is entitled to one vote.

The WVR structure enables the WVR Beneficiary to exercise voting control over the Company notwithstanding that the WVR Beneficiary does not hold a majority economic interest in the share capital of the Company. This will enable the Company to benefit from the continuing vision and leadership of the WVR Beneficiary who will control the Company with a view to its long-term prospects and strategy.

Investors are advised to be aware of the potential risks of investing in companies with a WVR structure, in particular that the interests of the WVR Beneficiary may not necessarily always be aligned with those of our Shareholders as a whole, and that the WVR Beneficiary will be in a position to exert significant influence over the affairs of our Company and the outcome of Shareholders' resolutions. Investors should make the decision to invest in the Company only after due and careful consideration.

The WVR Beneficiary is Mr. Zhao. As of December 31, 2022, assuming (i) no further Shares are issued under the Share Incentive Plans and (ii) without taking into account the voting rights attached to the 24,740,128 Class A Ordinary Shares issued to the Depository for bulk issuance of ADSs reserved for future issuances upon the exercise or vesting of awards granted under the Share Incentive Plans, Mr. Zhao beneficially owns and controls, through his intermediaries, an aggregate of 140,830,401 Class B Ordinary Shares, representing (a) approximately 16.3% of our issued Shares; (b) approximately 66.0% of the voting rights in our Company with respect to shareholder resolutions relating to matters other than Reserved Matters; and (c) approximately 16.3% with respect to shareholder resolutions relating to Reserved Matters. The Class B Ordinary Shares are held through TECHWOLF LIMITED. The entire interest in TECHWOLF LIMITED is held by a trust established by Mr. Zhao as the settlor for the benefit of Mr. Zhao and his family.

Class B Ordinary Shares may be converted into Class A Ordinary Shares on a one to one ratio. As of December 31, 2022, assuming the conversion of all the issued and outstanding Class B Ordinary Shares into Class A Ordinary Shares, the Company will issue 140,830,401 Class A Ordinary Shares, representing approximately 19.4% of the total number of issued and outstanding Class A Ordinary Shares. The weighted voting rights attached to Class B Ordinary Shares will cease when the WVR Beneficiary has no beneficial ownership of any of the Class B Ordinary Shares, in accordance with Rule 8A.22 of the Listing Rules. This may occur:

- (i) upon the occurrence of any of the circumstances set out in Rule 8A.17 of the Listing Rules, in particular where the WVR Beneficiary is: (1) deceased; (2) no longer a member of our Board; (3) deemed by the Hong Kong Stock Exchange to be incapacitated for the purpose of performing his duties as a director; or (4) deemed by the Hong Kong Stock Exchange to no longer meet the requirements of a director set out in the Listing Rules;
- (ii) when the holders of Class B Ordinary Shares have transferred to another person the beneficial ownership of, or economic interest in, all of the Class B Ordinary Shares or the voting rights attached to them, other than in the circumstances permitted by Rule 8A.18 of the Listing Rules;
- (iii) where a vehicle holding Class B Ordinary Shares on behalf of a WVR Beneficiary no longer complies with Rule 8A.18(2) of the Listing Rules; or
- (iv) when all of the Class B Ordinary Shares have been converted to Class A Ordinary Shares.

Mr. Zhao is the founder of the Group and has extensive experience in the business operations and management of the Group. The Board believes that vesting the roles of both chairman of the Board and chief executive officer to Mr. Zhao has the benefit of ensuring consistent leadership within the Group and enables more effective and efficient overall strategic planning for the Group. This structure will enable the Company to make and implement decisions promptly and effectively. The Board considers that the balance of power and authority will not be impaired due to this arrangement. In addition, all major decisions are made in consultation with members of the Board, including the relevant board committees and independent non-executive Directors. The Board will reassess the division of the roles of chairman and the chief executive officer from time-to-time, and may recommend dividing the two roles between different people in the future, taking into account the circumstances of the Group as a whole.

# INDEPENDENT AUDITOR'S REPORT

## OTHER INFORMATION

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## RESPONSIBILITIES OF DIRECTORS AND THE AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with U.S. GAAP and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

## AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

## INDEPENDENT AUDITOR'S REPORT

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

## INDEPENDENT AUDITOR'S REPORT

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Jack Li.

## 1. PRINCIPAL ACTIVITIES AND ORGANIZATION *(CONTINUED)*

### (c) Consolidated variable interest entity

In order to comply with the PRC laws and regulations which prohibit or restrict foreign investments into companies involved in restricted businesses, the Group operates its restricted businesses in the PRC mainly through the VIE, Huapin and its subsidiaries, whose equity interests are held by certain management members of the Group (the “Registered Shareholders”). By entering into a series of contractual arrangements with Huapin and its respective Registered Shareholders, which were updated in September 2022, the Company has the power to direct activities of Huapin that most significantly affect its economic performance and receive substantially all of the economic benefits from Huapin. Accordingly, the Company obtained a controlling financial interest in the VIE. The Company is determined to be the ultimate primary beneficiary of the VIE, and therefore consolidates the VIE’s results of operations, assets and liabilities in the Group’s consolidated financial statements under the accounting principles generally accepted in the United States of America (“U.S. GAAP”).

The principal terms of the contractual agreements entered into by and among the Company, through the WFOE, the VIE and the Registered Shareholders are further described below.

#### *Exclusive Technology and Service Co-operation Agreement*

Pursuant to the Exclusive Technology and Service Co-operation Agreement, the VIE has agreed to engage the WFOE as the exclusive provider of management consultancy, technical and other services as agreed. The VIE shall pay service fee to the WFOE, which shall be equivalent to total consolidated profit of the VIE and its subsidiaries, after offsetting the prior-year accumulated loss (if any), operating cost and expenses, taxes and other statutory contributions. Notwithstanding the foregoing, the WFOE shall have the right to adjust the level of the service fee by taking into account such factors as (a) the complexity and difficulty of the services, (b) the time taken for the services, (c) the scope and commercial value of the management consultancy, technical and other services, (d) the scope and commercial value of intellectual property licensing and leasing services, and (e) the market reference price for services of similar kinds. The VIE shall pay the service fee within 30 days after the delivering of payment instructions by the WFOE.

The Exclusive Technology and Service Co-operation Agreement shall remain effective until, among others, the date on which the WFOE or its designated party is formally registered as the shareholder of the VIE, in the case where the WFOE is permitted by the PRC laws to directly hold the VIE’s equity interests and the WFOE and its subsidiaries and branches are allowed to engage in the business being currently operated by the VIE.

### (c) Consolidated variable interest entity (*Continued*)

#### *Exclusive Purchase Option Agreement*

Pursuant to the Exclusive Purchase Option Agreement, the Registered Shareholders of the VIE have granted the WFOE or its offshore parent company or its directly or indirectly owned subsidiaries, an exclusive and irrevocable right to purchase all or any part of the respective equity interests in the VIE from the Registered Shareholders. Among others, the VIE and the Registered Shareholders irrevocably covenanted that unless with prior written consent by the WFOE, the VIE shall not sell, transfer, pledge, or otherwise dispose all or any part of its assets (other than the assets necessary for its ordinary course of business), and the Registered Shareholders shall not sell, transfer, pledge, or otherwise dispose all or any part of their equity interests in the VIE, other than the pledge of the VIE's equity interests pursuant to these contractual arrangements. The purchase price payable by the WFOE or its designee in respect of the transfer of the entire equity interests and/or total assets of the VIE shall be the nominal price, or the minimum price required by relevant PRC authorities or PRC laws. However, in any event, subject to the provisions and requirements of PRC laws, the price paid by the WFOE and/or its designee to the VIE and/or Registered Shareholders at any such price shall be returned by the VIE and/or Registered Shareholders at the time and in the form requested by the WFOE.

The Exclusive Purchase Option Agreement shall remain effective for ten years with the WFOE having the option to renew it until all the equity interests in and/or all assets of the VIE have been transferred to the WFOE and/or its designee (registration has been completed for the change of members), and the WFOE and its subsidiaries and branches can legally engage in the business of the VIE.

#### *Equity Pledge Agreement*

Pursuant to the Equity Pledge Agreement, the Registered Shareholders of the VIE have pledged all of equity interests in the VIE to the WFOE to guarantee performance of their obligations under the contractual arrangements and all liabilities, monetary debts or other payment obligations arising out of or in relation with the contractual arrangements. In the event of a breach by the VIE or any of its Registered Shareholders of contractual obligations under the Equity Pledge Agreement, the WFOE will have the right to (1) demand all the outstanding payments according to the Exclusive Technology and Service Co-operation Agreement, and/or (2) exercise its right of pledge according to the Equity Pledge Agreement, or otherwise dispose of the pledged equity interests in accordance with applicable laws, unless the event of default has been resolved in the satisfactory of the WFOE in time.

The Equity Pledge Agreement shall remain valid until, among others, the VIE and the Registered Shareholders have recorded the release of such pledged equity interests in the register of members of the VIE and completed relevant deregistration procedure.

#### *Spousal Consent Letter*

Pursuant to the Spousal Consent Letter, the spouses of the Registered Shareholders unconditionally and irrevocably consented to the execution of the relevant contractual agreements and to the disposal in accordance therewith of the equity interests in the VIE held by the Registered Shareholders (as the case may be). Additionally, each of the spouses agreed not to make any claim with respect to the equity interests in the VIE held by such Registered Shareholder, and to be bound by the relevant contractual agreements if for any reason the spouses acquire any equity interest in VIE held by each Registered Shareholder.

#### *Power of Attorney*

Pursuant to the Power of Attorney, each of the Registered Shareholders appointed the WFOE and/or its designee as their sole and exclusive agent to act on their behalf on all matters concerning the VIE and to exercise all of their rights as shareholders of the VIE, including but not limited to (1) to propose, convene and attend shareholders meetings and sign minutes and resolutions, (2) to exercise all shareholder rights that they are entitled to under PRC law and the relevant articles of association, including but not limited to, the right to vote and the right to sell, transfer, pledge or disposal of all or part of their shareholding; and (3) to elect, designate and appoint the legal representative, chairman, directors, supervisors, general manager and other senior executives of the VIE.

### (d) Risks in relations to the VIE structure

The Group believes that the above contractual arrangements between or among the WFOE, VIE and the Registered Shareholders are following PRC laws and regulations as applicable. However, uncertainties in the PRC legal system could limit the Company's ability to enforce these contractual arrangements. The PRC Foreign Investment Law effect from January 1, 2020 doesn't explicitly classify contractual arrangements as a form of foreign investments. There are substantial uncertainties with respect to its implementation and interpretation and the possibility that the VIE will be deemed as a foreign-invested enterprise and subject to relevant restrictions in the future shall not be excluded. If the contractual arrangements establishing the Company's VIE structure are found to be in violation of any existing or future PRC law and regulations, the relevant PRC government authorities will have broad discretion in dealing with such violation, including without limitation, levying fines, confiscating the Group's income or the income from the VIE, revoking the Group's business licenses or operating licenses, requiring the Group to restructure its ownership structure or operations or to discontinue any portion or all of the Group's prohibited businesses. The imposition of these penalties may result in a severe adverse impact on the Company's ability to direct the activities of the VIE or receive economic benefits from the VIE, which may result in the deconsolidation of the VIE.

Under the contractual arrangements with the VIE, the Company has the power to direct activities of the VIE through the WFOE that most significantly impact the VIE such as having assets transferred out of the VIE at its discretion. Therefore, the Company considers that there is no asset of the VIE that can be used to settle obligations of the VIE except for registered capital and any PRC statutory reserves of the VIE, which amounted to RMB9,002 and RMB9,002 as of December 31, 2021 and 2022, respectively. Since the VIE was incorporated as a limited liability company under the PRC Company Law, the creditors do not have recourse to the general credit of the WFOE for all the liabilities of the VIE.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### (a) Basis of presentation

The accompanying consolidated financial statements have been prepared in accordance with U.S. GAAP and the disclosure requirements of the Hong Kong Companies Ordinance.

Significant accounting policies followed by the Group in the preparation of its accompanying consolidated financial statements are summarized below.

### (b) Basis of consolidation

The consolidated financial statements include the financial statements of the Company, its subsidiaries, the consolidated VIE and VIE's subsidiaries for which the Company is the ultimate primary beneficiary.

A subsidiary is an entity in which the Company, directly or indirectly, controls more than one half of the voting power; or has the power to appoint or remove the majority of the members of the board of directors, to cast a majority of votes at the meeting of the board of directors or to govern the financial and operating policies under a statute or agreement among the shareholders or equity holders.

The Company applies the guidance codified in ASC 810, *Consolidations* on accounting for the VIE, which requires certain variable interest entities to be consolidated by the primary beneficiary of the entity in which it has a controlling financial interest. A VIE is an entity with one or more of the following characteristics: (a) the total equity investment at risk is not sufficient to permit the entity to finance its activities without additional financial support; (b) as a group, the holders of the equity investment at risk lack the ability to make certain decisions, the obligation to absorb expected losses or the right to receive expected residual returns; or (c) an equity investor has voting rights that are disproportionate to its economic interest and substantially all of the entity's activities are on behalf of the investor with disproportionately fewer voting rights.

All transactions and balances between the Company, its subsidiaries, the consolidated VIE and VIE's subsidiaries have been eliminated upon consolidation.

### (c) Use of estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the balance sheet dates and revenues and expenses during the reporting periods. Accounting estimates reflected in the Group's consolidated financial statements include, but are not limited to, useful lives of property, equipment and software and intangible assets, impairment assessments of long-lived assets and goodwill, fair value of assets acquired and liabilities assumed in a business combination, valuation allowance for deferred tax assets, the provision for credit losses of financial assets and valuation of share-based compensation. Management bases the estimates on historical experience, known trends and various other assumptions that are believed to be reasonable under current circumstances. Actual results could differ from those estimates.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*CONTINUED*)

### (d) Functional currency and foreign currency translation

The Group's reporting currency is Renminbi ("RMB"). The functional currency of the Company and subsidiaries incorporated in Hong Kong and the United States of America, is the United States dollars ("US\$"). The functional currency of the Group's PRC subsidiaries, consolidated VIE and VIE's subsidiaries is RMB. The determination of the respective functional currency is based on the criteria of ASC 830, *Foreign Currency Matters*.

Transactions denominated in currencies other than the functional currency are translated into the functional currency of the entity at the exchange rates quoted by authoritative banks prevailing on the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency using the applicable exchange rates at the balance sheet dates. Exchange gain or loss resulting from those foreign currency transactions denominated in foreign currencies is recorded in foreign exchange gain/(loss) the consolidated financial statements.

The financial statements of the Company and subsidiaries located outside of the PRC are translated from their functional currency into RMB. Their assets and liabilities are translated into RMB using the applicable exchange rates at the balance sheet date. Equity accounts other than earnings generated in current period are translated into RMB at the appropriate historical rates. Revenues, expenses, gain and loss are translated into RMB using the periodic average exchange rates. The resulting foreign currency translation adjustments are recorded in other comprehensive income/(loss) in the consolidated financial statements.

### (e) Convenience translation

Translations of the consolidated balance sheets, the consolidated statements of comprehensive income/(loss) and the consolidated statements of cash flows from RMB into US\$ as of and for the year ended December 31, 2022 are solely for the convenience of the readers, and were calculated at the rate of RMB6.8972 per US\$1.00 on December 30, 2022 as set forth in the H.10 statistical release of the U.S. Federal Reserve Board. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into US\$ at that rate or at any other rate.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*CONTINUED*)

### (f) Fair value measurement

Accounting guidance defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurement for assets and liabilities required or permitted to be recorded at fair value, the Group considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

Accounting guidance establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Accounting guidance establishes three levels of inputs that may be used to measure fair value:

- Level 1 – Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 – Include other inputs that are directly or indirectly observable in the marketplace.
- Level 3 – Unobservable inputs which are supported by little or no market activity.

Accounting guidance also describes three main approaches to measuring the fair value of assets and liabilities: (1) market approach; (2) income approach and (3) cost approach. The market approach uses prices and other relevant information generated from market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount and the measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that would currently be required to replace an asset.

Financial assets and liabilities of the Group mainly consist of cash and cash equivalents, short-term investments, accounts receivable, amounts due from related parties, prepayments and other current assets, accounts payable and other current liabilities. Except for short-term investments, the carrying values of other financial assets and liabilities approximate their fair values due to the short-term maturity of these instruments. The Group reports short-term investments at fair value based on Level 2 measurement.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### (g) Business combination

Business combinations are recorded using the purchase method of accounting in accordance with ASC 805, *Business Combinations*. The consideration transferred in an acquisition is measured as the aggregate of the fair value of the assets transferred, liabilities incurred and equity instruments issued as of the acquisition date. Transaction cost directly attributable to the acquisition is expensed as incurred. Identifiable assets and liabilities acquired or assumed are measured separately at their fair value as of the acquisition date, irrespective of the extent of any non-controlling interests. The excess of total of consideration paid, fair value of any non-controlling interests and the acquisition-date fair value of any previously held equity interest in the subsidiary acquired over the fair value of the identifiable net assets of the subsidiary acquired is recorded as goodwill. If the consideration of the acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the consolidated statements of comprehensive income/(loss).

### (h) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits and highly liquid investments that are readily convertible to known amounts of cash, which have original maturities of three months or less.

### (i) Short-term investments

Short-term investments mainly include wealth management products issued by financial institutions, which are principal-not-guaranteed or with original maturities longer than three months but less than one year. These investments are stated at fair value and changes in the fair value are reflected in investment income in the consolidated statements of comprehensive income/(loss). Additionally, short-term investments are comprised of deposits with original maturities longer than three months but less than one year.

### (j) Accounts receivable, net

Accounts receivable are presented net of allowance for credit losses. The Group adopts ASC 326 from 2022 and provides an allowance against accounts receivable based on the expected credit loss approach as described in Note 2(aa). No material allowance was recognized for the years ended December 31, 2021 and 2022.

An aging analysis of accounts receivable as of December 31, 2021 and 2022, based on the invoice date, is as follows:

	As of December 31,	
	2021 RMB	2022 RMB
Within 3 months	710	8,903
Between 3 months and 6 months	105	415
Between 6 months and 1 year	90	92

### (k) Property, equipment and software

Property, equipment and software are stated at cost less accumulated depreciation and impairment, if any. Property, equipment and software are depreciated over the estimated useful lives on a straight-line basis. The estimated useful lives are as follows:

Category	Estimated useful lives
Electronic equipment	3-5 years
Leasehold improvement	Shorter of lease term or estimated useful life of the assets
Furniture and fixtures	5 years
Motor vehicles	3-5 years
Software	5 years

The majority of electronic equipment are servers. The Group recognized the gain or loss on the disposal of property, equipment and software in other operating income/(expenses) in the consolidated statements of comprehensive income/(loss).

### (l) Intangible Assets

Intangible assets purchased are initially recognized at cost, and intangible assets acquired in a business combination are initially recorded at fair value as of the acquisition date. Intangible assets with finite useful lives are amortized on a straight-line basis over the estimated useful lives, which are determined based on the period of contractual rights or estimated period during which such assets can bring economic benefits to the Group. The estimated useful lives are as follows:

Category	Estimated useful lives
Domains	10 years
Non-compete agreements	6 years
Trademarks	3 years
Database	3 years

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*CONTINUED*)

### (m) Impairment of long-lived assets other than goodwill

Long-lived assets, such as fixed assets and intangible assets with finite lives, are evaluated for impairment whenever events or changes in circumstances (such as a significant adverse change to market conditions that will impact the future use of the assets) indicate that the carrying value of an asset may not be fully recoverable. The Group evaluates the impairment for the long-lived assets by comparing the carrying value of the assets to the undiscounted future cash flows expected to be generated from the use of the assets and their eventual disposition. If the sum of the expected undiscounted future cash flows is less than the carrying value of the asset, the Group recognizes an impairment loss based on the excess of the carrying value of the asset over the fair value of the asset. No impairment of long-lived assets was recognized for the years ended December 31, 2021 and 2022.

### (n) Goodwill

Goodwill represents the excess of the purchase price over the fair value of the identifiable assets and liabilities acquired or assumed in a business combination. Goodwill is tested for impairment at least annually and more frequently when an event occurs or circumstances change that could indicate that the asset might be impaired. In accordance with ASU 2017-04, *Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*, the Group first assesses qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. If it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the quantitative impairment test is mandatory; otherwise, no further testing is required. The quantitative impairment test consists of a comparison of the fair value of the reporting unit with its carrying amount, including goodwill. If the carrying amount of the reporting unit exceeds its fair value, an impairment loss equal to the difference between the carrying amount of the reporting unit and its fair value will be recorded. For the year ended December 31, 2022, no impairment indicator was noted and no impairment of goodwill was recorded.

### (o) Revenue recognition

The Group accounted for revenue under ASC 606, *Revenue from Contracts with Customers*. The Group applies the five steps defined under ASC 606: (i) identify the contract(s) with a customer; (ii) identify performance obligations in the contract; (iii) determine the transaction price; (iv) allocate the transaction price to the performance obligations in the contract and (v) recognize revenue when (or as) a performance obligation is satisfied.

According to ASC 606, revenue is recognized net of value-added tax (“VAT”) when or as the control of services is transferred to a customer. Depending on the terms of the contract, control of services may be transferred over time or at a point in time. Control of services is transferred over time if one of the following criteria is met: (i) customers simultaneously receive and consume the benefits provided by the Group’s performance; (ii) the Group’s performance creates or enhances an asset that customers control; or (iii) the Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payments for performance completed to date. If control of services is transferred over time, revenue is recognized over the period of the contract by reference to the progress towards complete satisfaction of that performance obligation. Otherwise, revenue is recognized at a point in time when customers obtain control of the services.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*CONTINUED*)

### (o) Revenue recognition (*Continued*)

#### *Online recruitment services to enterprise customers*

The Group provides online recruitment services with different kinds of features to enterprise customers, including direct recruitment services such as job postings, and value-added tools such as bulk invite sending, which could be purchased as a part of a package or on a standalone basis.

Based on the pattern by which the Group provides services and how enterprise customers benefit from services, these services can be divided into two categories in terms of revenue recognition: (i) services over a particular subscription period, which provide enterprise customers certain rights during a particular subscription period; for example, paid job postings allow enterprise customers to present certain job positions, receive job seeker recommendations, browse the mini-resume of and chat with a certain number of job seekers in its platform during the subscription period; and (ii) services with definite and limited number of usages within an expiration period, such as bulk invite sending and advanced filter. Accordingly, the Group recognizes its revenues from online recruitment services either over time or at a point in time as following:

- For services over a particular subscription period, the Group has a stand-ready obligation to deliver the corresponding services on a when-and-if-available basis during the subscription period, and enterprise customers simultaneously and continuously receive and consume the benefits as the Group provides the services throughout the subscription period. Therefore, a time-based measure of progress best reflects the satisfaction of the performance obligations and the Group recognizes the related revenues on a straight-line basis over the subscription period.
- For services with definite and limited number of usages within an expiration period, upon the delivery of the individual services, the Group satisfies its performance obligations and enterprise customers benefit from its performance obligations. Therefore, revenues are recognized at a point in time. If these services are unused within the expiration period, the Group recognizes the relevant revenues when they expire.

#### *Other services*

Other services mainly represent paid value-added tools offered to job seekers such as increased exposure of resume and candidate competitive analysis.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*CONTINUED*)

### (o) Revenue recognition (*Continued*)

#### *Arrangements with multiple performance obligations*

Multiple performance obligations exist when enterprise customers purchase subscription packages, which include an array of services. For those services included in subscription packages, the selling prices are consistently made references to the standalone selling prices when sold separately. The Group allocates the transaction price to each performance obligation based on the relative standalone selling price, considering bulk-sale price discounts offered to certain enterprise customers where applicable.

#### *Deferred revenue*

The Group records deferred revenue when the Group receives customers' payments in advance of transferring control of services to customers. Substantially all deferred revenue recorded are expected to be recognized as revenues in the next twelve months.

#### *Remaining performance obligations*

Remaining performance obligations represent the amount of contracted future revenues not yet recognized as the amount relate to undelivered performance obligations. Substantially all of the Group's contracts with customers are within one year in duration. As such, the Group has elected to apply the practical expedient which allows an entity to exclude disclosures about its remaining performance obligations if the performance obligation is part of a contract that has an original expected duration of one year or less.

### (p) Cost of revenues

Cost of revenues primarily consist of third-party payment processing cost, payroll and other employee-related expenses, server and bandwidth service cost, server depreciation and other expenses, which are directly attributable to the performance of the Group's online recruitment services.

### (q) Sales and marketing expenses

Sales and marketing expenses primarily consist of advertising expenses, payroll and other employee-related expenses for the Group's sales and marketing staff, as well as other expenses such as office rental and property management fees for sales functions. Advertising expenses primarily include online traffic acquisition and brand marketing cost. For the years ended December 31, 2021 and 2022, advertising expenses totaled RMB997,650 and RMB793,211, respectively.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*CONTINUED*)

### (r) Research and development expenses

Research and development expenses primarily consist of payroll and other employee-related expenses for the Group's research and development staff and other expenses such as office rental and property management fees for research and development functions. All research and development costs are expensed as incurred.

### (s) General and administrative expenses

General and administrative expenses primarily consist of payroll and other employee-related expenses for the Group's managerial and administrative staff and other expenses such as office rental and property management fees.

The auditor's remuneration in relation to audit and audit-related services provided for the years ended December 31, 2021 and 2022 were RMB13,910 and RMB18,983, respectively. The auditor's remuneration in relation to non-audit services provided for the years ended December 31, 2021 and 2022 were RMB1,207 and RMB368, respectively.

### (t) Employee benefits

Full-time employees of the Group in the PRC participate in a government mandated defined contribution plan, pursuant to which certain pension benefits, medical care, employee housing fund and other welfare benefits are provided to employees. Chinese labor regulations require that the PRC subsidiaries, consolidated VIE and VIE's subsidiaries of the Group make contributions to the government for these benefits based on certain percentages of the employees' salaries, up to a maximum amount specified by the local government. The Group has no legal obligation for the benefits beyond the contributions made. There were no forfeited defined contribution to offset existing contribution under the defined contribution plan during the years ended December 31, 2021 and 2022. Total amounts of such employee benefit expenses contributed by the Group, including accrued and unpaid amounts, were RMB256,533 and RMB395,193 for the years ended December 31, 2021 and 2022, respectively.

### (u) Share-based compensation

The Group grants share options and restricted share units ("RSUs") to its management, eligible employees and non-employees. Such compensation is accounted for in accordance with ASC 718, *Compensation-Stock Compensation*. The Group adopted ASU 2018-07, *Improvements to Non-employee Share-Based Payment Accounting*, for the years presented. Under ASU 2018-07, the accounting for non-employees' share-based awards are similar to the model for employee awards. And forfeitures are accounted for when they occur.

Share-based awards with service conditions only are measured at the grant-date fair value of the awards and recognized as expenses using the straight-line method over the requisite service period. Share-based awards that are subject to both service conditions and the occurrence of an IPO or change of control as a performance condition, are measured at the grant-date fair value, and cumulative share-based compensation expenses for the awards that have satisfied the service condition were recorded upon the completion of the Company's US IPO in June 2021.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*CONTINUED*)

### (u) Share-based compensation (*Continued*)

The fair value of share options is estimated using the binomial option-pricing model. The determination of the fair value is affected by the fair value of the ordinary shares as well as assumptions regarding a number of complex and subjective variables, including the expected share price volatility, actual and projected employee and non-employees share option exercise behavior, risk-free interest rates and expected dividend yield. Binomial option-pricing model incorporates the assumptions about grantees' future exercise patterns. The fair value of these awards was determined by management with the assistance from an independent valuation firm using management's estimates and assumptions. The fair value of the RSUs, which were granted subsequent to the completion of the Company's US IPO, is estimated based on the fair value of the underlying ordinary shares of the Company on the grant date.

The assumptions used in share-based compensation expense recognition represent management's best estimates, but these estimates involve inherent uncertainties and application of management judgment. If factors change or different assumptions are used, the share-based compensation expenses could be materially different for any period. Moreover, the estimates of fair value of the awards are not intended to predict actual future events or the value that ultimately will be realized by grantees who receive share-based awards.

### (v) Operating leases

The Group accounts for operating leases in accordance with ASC 842, *Leases*. Based on the present value of lease payments over the lease term, right-of-use assets and operating lease liabilities are recognized for operating leases at lease commencement dates. As most of the Group's leases don't provide an implicit rate, the Group uses the incremental borrowing rate based on the information available at lease commencement dates in determining the present value of lease payments. Renewal options are included in the lease term if the Group is reasonably certain to exercise those options while options to terminate the lease are only included in the lease term if the Group is reasonably certain not to exercise those options. Lease expenses are recognized on a straight-line basis over the lease terms. And the Group has elected the practical expedient to account for lease and non-lease components as a single lease component.

For operating lease with a term of one year or less, the Group has elected to not recognize any right-of-use asset or lease liability on its consolidated balance sheets. Instead, it recognizes the lease payments as operating cost and expenses in the consolidated statements of comprehensive income/(loss) on a straight-line basis over the lease term. Short-term lease expenses are immaterial to the consolidated statements of comprehensive income/(loss).

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*CONTINUED*)

### (w) **Income tax**

Current income taxes are recorded in accordance with the regulations of the relevant tax jurisdiction. The Group accounts for deferred income taxes under the liability method in accordance with ASC 740, *Income Tax*. Under this method, deferred tax assets and liabilities are recognized for the tax consequences attributable to differences between carrying amounts of existing assets and liabilities in the financial statements and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred taxes of a change in tax rates is recognized in the consolidated statements of comprehensive income/(loss) in the period of change. Valuation allowances are established when necessary to reduce the amount of deferred tax assets if it is considered more likely than not that amount of deferred tax assets will not be realized.

The Group recognizes the benefit of a tax position if the tax position is more-likely-than-not to prevail based on the facts and technical merits of the position. Tax positions that meet the more-likely-than-not recognition threshold is then measured at the largest amount of tax benefit that has a greater than fifty percent likelihood of being realized upon settlement. The Group estimates its liability for unrecognized tax benefits which are periodically assessed and may be affected by changing interpretations of laws, rulings by tax authorities, changes and/or developments with respect to tax audits, and expiration of the statute of limitations. The ultimate outcome for a particular tax position may not be determined with certainty prior to the conclusion of a tax audit and, in some cases, appeal or litigation process. The actual benefits ultimately realized may differ from the Group's estimates and any adjustments are recorded in the Group's consolidated financial statements in the period in which the audit is concluded. Additionally, changes in facts, circumstances and new information may require the Group to adjust the recognition and measurement estimates with regard to individual tax positions and such changes are recognized in the period in which the changes occur. As of December 31, 2022, the Group did not have any significant unrecognized uncertain tax positions.

### (x) **Comprehensive income/(loss)**

Comprehensive income/(loss) is defined as the change in equity of a company during a period from transactions and other events and circumstances excluding those resulting from investments by shareholders and distributions to shareholders. The Group recognizes foreign currency translation adjustments as other comprehensive income/(loss) in the consolidated financial statements. As such adjustments do not incur income tax obligations, there are no tax adjustments to arrive at other comprehensive income/(loss) on a net-of-tax basis.

### (y) **Segment reporting**

In accordance with ASC 280, *Segment Reporting*, the Group's chief operating decision maker has been identified as the Chief Executive Officer (the "CEO"), who reviews consolidated results when making decisions about allocating resources and assessing performance of the Group as a whole. Therefore, the Group has only one reportable segment. As the Group's long-lived assets are substantially located in the PRC and substantially all of the Group's revenues are derived from entities within the PRC, no geographical segments are presented.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (*CONTINUED*)

### (z) Net income/(loss) per share

Basic net income/(loss) per share is computed by dividing net income/(loss) attributable to ordinary shareholders by the weighted average number of ordinary shares outstanding during the period. Diluted net income/(loss) per share is calculated by dividing net income/(loss) attributable to ordinary shareholders by the weighted average number of ordinary shares and, if dilutive, potential ordinary shares outstanding during the period. Potential ordinary shares consist of shares issuable upon the conversion of the preferred shares using the if-converted method, for periods prior to the completion of the Company' US IPO in June 2021, unvested RSUs and shares issuable upon the exercise of share options using the treasury stock method.

The two-class method is used for computing net income per share in the event the Group has net income available for distribution. Under the two-class method, net income is allocated between ordinary shares and other participating securities based on their participating rights, if applicable. Prior to the completion of the Company' US IPO in June 2021, the computation of basic net loss per share using the two-class method was not applicable as the Group was in a net loss position and the participating securities did not have contractual obligations to share in the loss of the Group.

### (aa) Recent accounting pronouncements

#### *Recently adopted accounting pronouncements*

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments* (“ASU 2016-13”), which requires the measurement and recognition of expected credit losses for certain financial assets and is codified in ASC 326, *Credit Losses*. ASU 2016-13 replaces the existing incurred loss impairment model with an expected loss methodology, which will result in more timely recognition of credit losses. The Group's financial assets that are assessed to be within the scope of ASC 326 primarily include accounts receivable and other current assets. The Group has identified the relevant risk characteristics of these items, including size, type of services provided, historical credit loss experience and industry-specific factors, etc. The Group adopted this ASU in 2022, using a modified retrospective method, which resulted in a cumulative-effect adjustment of RMB606 to increase the opening balance of accumulated deficit on January 1, 2022. The adoption of this ASU has no material impact on the Group's consolidated financial statements.

#### *Recent accounting pronouncements not yet adopted*

In October 2021, the FASB issued ASU 2021-08, *Business Combinations (Topic 805): Accounting for Contract Assets and Contract Liabilities from Contracts with Customers*, which provides guidance on the acquirer's accounting for acquired revenue contracts with customers in a business combination. The amendments require an acquirer to recognize and measure contract assets and contract liabilities acquired in a business combination at the acquisition date in accordance with ASC 606 as if it had originated the contracts. This guidance also provides certain practical expedients for acquirers when recognizing and measuring acquired contract assets and contract liabilities from revenue contracts in a business combination. The new guidance is required to be applied prospectively to business combinations occurring on or after the date of adoption. This guidance is effective for the Group for fiscal years beginning after December 15, 2022, including interim periods within those fiscal years. Early adoption is permitted. The Group does not expect that the adoption of this guidance will have a material impact on its consolidated financial statements.

### 3. CONCENTRATION AND RISKS

**(a) Concentration of credit risk**

Financial instruments that potentially expose the Group to the concentration of credit risk primarily consist of cash and cash equivalents and short-term investments. The maximum exposure of such assets to credit risk is their carrying amounts as of the balance sheet dates. The Group places its cash and cash equivalents and short-term investments with financial institutions which the Group believes are of high-credit rating and quality. In the event of bankruptcy of these financial institutions, the Group may not be able to claim its cash and cash equivalents and short-term investments back in full. The Group regularly monitors the rating and financial strength of these financial institutions to avoid potential defaults.

**(b) Foreign currency exchange rate risk**

Since June 2010, the RMB has fluctuated against the US\$, at times significantly and unpredictably. The appreciation of the RMB against the US\$ was approximately 2.3% in 2021, and the depreciation of the RMB against the US\$ was approximately 9.2% in 2022. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the RMB and the US\$ in the future.

## 7. BUSINESS ACQUISITION

On October 11, 2022, the Group completed the acquisition of 100% equity interest of Beijing Qihui Ruituo Consulting Co., Ltd. (“Beijing Qihui”), which focuses on providing executive search services for mid-level to senior management and professional technical personnel to employers in the internet industry.

The consideration of this acquisition was RMB10.0 million in cash. Additionally, there was a contingent payment arrangement, which was mainly subject to continued employments of the founder of Beijing Qihui and certain key employees and certain performance conditions. The contingent payment arrangement was accounted for as post-combination compensation expenses during the requisite service periods when it is probable that the performance conditions will be met.

The acquisition was accounted for as a business acquisition using the purchase method of accounting. The consideration of the acquisition was allocated based on the fair value of the assets acquired and the liabilities assumed as of the acquisition date as follows:

	<b>Amount RMB</b>
Purchase consideration	10,000
Identifiable intangible assets acquired	
– Non-compete agreements	8,400

– Database	1,000
Goodwill	5,690
Deferred tax liabilities	(2,080)
Net liabilities assumed	(4,010)
<b>Total</b>	<b>10,000</b>

Goodwill was primarily attributable to the benefit of the synergies and future business growth expected to be achieved from the acquisition. Goodwill was expected to be non-deductible for income tax purposes.

Pro forma results of operations for this acquisition were not presented because the effect of this acquisition was not material to the Group’s consolidated financial statements for the year ended December 31, 2022.

In accordance with the implementation rules of the EIT Law, a qualified "High and New Technology Enterprise" ("HNTE") is eligible for a preferential tax rate of 15%. The HNTE certificate is effective for a period of three years and could be re-applied when the prior certificate expires. Huapin is qualified as a HNTE and enjoys a preferential income tax rate of 15% for the years presented.

According to relevant laws and regulations promulgated by the State Taxation Administration of the PRC effective from 2018 onwards, enterprises engaging in research and development activities are entitled to claim 175% of their qualified research and development expenses incurred as tax deductible expenses when determining their assessable profits for the year, which is subject to the approval from the relevant tax authorities.

Pursuant to the announcement issued by the State Taxation Administration of the PRC and other government authorities in September 2022, enterprises engaging in research and development activities are entitled to claim 200% of qualified research and development expenses for the period from October 1, 2022 to December 31, 2022 as tax deductible expenses. ### 12. INCOME TAX (CONTINUED)

Valuation allowance is provided against deferred tax assets based on a more-likely-than-not threshold. In making such determination, the Group evaluates a variety of factors including future reversals of existing taxable temporary differences and future profitability. Deferred tax assets that arose from deductible advertising expenses were provided for full valuation allowance, because there was no positive evidence to conclude that the benefit of such deferred tax assets would be more-likely-than-not to be realized based on the historical level of advertising expenditures. As of December 31, 2022, deferred tax assets of RMB13,266 that mainly arose from net operating loss carry-forwards of the VIE were expected to be utilized prior to expiration, while the remaining deferred tax assets mainly arising from net operating loss carry-forwards of other consolidated entities were provided for full valuation allowance because they were expected to continue to be loss-making in the foreseeable future.

Movements of valuation allowance are as follows:

	For the year ended December 31,	
	2021 RMB	2022 RMB
Balance at beginning of the year	250,032	334,848

### Conversion rights

#### *Optional conversion*

Each Series A, B, C, D, E and F Preferred Share shall be convertible, at the option of the holder thereof, at any time and without the payment of additional consideration by the holder thereof, into such number of Class A ordinary shares as determined by the quotient of the applicable issue price divided by the then effective applicable conversion price with respect to such particular series of Preferred Shares, which shall initially be the applicable issue price for the Series A, B, C, D, E and F Preferred Shares, as the case may be, resulting in an initial conversion ratio for the Preferred Shares of 1:1, and shall be subject to adjustment and readjustment from time to time, including but not limited to additional equity securities issuances, share dividends, distributions, subdivisions, redemptions, combinations, or reorganizations, mergers, consolidations, reclassifications, exchanges or substitutions.

#### *Automatic conversion*

Each Preferred Share is convertible, at the option of the holder, at any time after the date of issuance of such Preferred Shares according to a conversion ratio, subject to adjustments for dilution, including but not limited to stock splits, stock dividends and capitalization and certain other events. Each Preferred Share is convertible into a number of ordinary shares determined by dividing the applicable original issue price by the conversion price (initially being 1 to 1 conversion ratio). The conversion price of each Preferred Share is the same as its original issue price and no adjustments to conversion price have occurred so far.

Each Series A, B, C, D, E and F Preferred Share shall automatically be converted into Class A ordinary shares, at the then applicable preferred share conversion price upon (i) closing of a Qualified Initial Public Offering (“Qualified IPO”), or (ii) the written approval of the holders of a majority of each series of Preferred Shares (calculated and voting separately in their respective single class on an as-converted basis).

Prior to the Series D Preferred Shares issuance on November 2, 2017, a “Qualified IPO” was defined as an initial public offering with gross proceeds no less than US\$60 million and capitalization of the Company of no less than US\$350 million prior to such initial public offering. ### **Voting rights**

Each holder of Series A, B, C, D, E and F Preferred Shares is entitled to cast the number of votes equal to the number of Class A ordinary shares such Preferred Shares would be entitled to convert into at the then effective conversion price. ### **Liquidation preference**

## 14. CONVERTIBLE REDEEMABLE PREFERRED SHARES (*CONTINUED*)

### Redemption rights

At any time commencing on a date specified in the shareholders' agreements (the "Redemption Start Date"), holders of majority (more than 50%) of the then outstanding Series A, B, C, D, E and F Preferred Shares may request a redemption of the Preferred Shares of such series. On receipt of a redemption request from the holders, the Company shall redeem all or part, as requested, of the outstanding Preferred Shares of such series.

The Redemption Start Date of Preferred Shares have been amended for a number of times historically. If any holder of any series of Preferred Shares exercises its redemption right, any holder of other series of Preferred Shares shall have the right to exercise the redemption of its series at the same time.

The redemption prices have been modified historically. Prior to the issuance of Series F Preferred Shares, the price at which each Preferred Share shall be redeemed shall equal to the original Preferred Shares issue price for such series plus 10% compound interest per annum (calculated from the issuance date of the respective series of Preferred Shares), and declared but unpaid dividends. Upon the issuance of Series F Preferred Shares, the price at which each Preferred Share shall be redeemed shall equal to the original Preferred Shares issue price for such series plus 8% simple interest per annum (calculated from the issuance dates of the respective series of Preferred Shares), and declared but unpaid dividends.

If on the redemption date triggered by the occurrence of any redemption event, the Company's assets or funds which are legally available are insufficient to pay in full the aggregate redemption price for Preferred Shares requested to be redeemed, upon the request of a redeeming shareholder, the Company shall execute and deliver a two-year note, bearing an interest of ten percent (10%) per annum and with repayment of the principal and interest to be made on a monthly basis over a period of twenty-four (24) months. Preferred Shares subject to redemption with respect to which the Company has become obligated to pay the redemption price but which it has not paid in full shall continue to have all the rights and privileges which such Preferred Shareholders had prior to such date, until the redemption price has been paid in full with respect to such Preferred Shares.

### Conversion upon US IPO

In June 2021, upon the completion of the US IPO, all of the Preferred Shares were automatically converted to 551,352,134 Class A ordinary shares on a one-for-one basis.

## 14. CONVERTIBLE REDEEMABLE PREFERRED SHARES (*CONTINUED*)

### Accounting for preferred shares

The Company classified the Preferred Shares in the mezzanine equity section of the consolidated balance sheets because they were redeemable at the holders' option any time after a certain date and were contingently redeemable upon the occurrence of certain liquidation event outside of the Company's control. The Preferred Shares are recorded initially at fair value, net of issuance cost.

The Company records accretion on the Preferred Shares, where applicable, to the redemption value from the issuance dates to the earliest redemption dates. The accretion, calculated using the effective interest method, is recorded against retained earnings, or in the absence of retained earnings, by charging against additional paid-in capital. Once additional paid-in capital has been exhausted, additional charges are recorded by increasing the accumulated deficit. The accretion of Preferred Shares was RMB164,065 (US\$25,284) for the year ended December 31, 2021.

The Company has determined that, under the whole instrument approach, host contract of the Preferred Shares is more akin to a debt host, given the Preferred Shares holders have potential creditors' right in the event of insufficient fund upon redemption, along with other debt-like features in the terms of the Preferred Shares, including the redemption rights. However, the Company determined that the embedded feature, including conversion feature, do not require bifurcation as they either are clearly and closely related to the host or do not meet definition of a derivative.

The Company has determined that there was no beneficial conversion feature attributable to all Preferred Shares because the initial effective conversion prices of these Preferred Shares were higher than the fair value of the Company's ordinary shares determined by the Company with the assistance from an independent third-party appraiser.

### Modification of preferred shares

The Company assesses whether an amendment to the terms of its convertible redeemable preferred shares is an extinguishment or a modification based on a qualitative evaluation of the amendment. If the amendment adds, removes, significantly changes to a substantive contractual term or to the nature of the overall instrument, the amendment results in an extinguishment of the preferred shares. The Company also assesses if the change in terms results in value transfer between Preferred Shareholders or between Preferred Shareholders and ordinary shareholders.

When convertible redeemable preferred shares are extinguished, the difference between the fair value of the consideration transferred to the convertible redeemable Preferred Shareholders and the carrying amount of such preferred shares (net of issuance cost) is treated as a deemed dividend to the Preferred Shareholders. When convertible redeemable preferred shares are modified and such modification results in value transfer between Preferred Shareholders and ordinary shareholders, the change in fair value resulted from the amendment is treated as a deemed dividend to or from the Preferred Shareholders.

	<b>For the year ended December 31, 2021</b>
Fair value of ordinary shares on the date of option grant (US\$)	6.78-18.09

Expected dividend yield <sup>(2)</sup>	0%
Expected volatility <sup>(3)</sup>	58.8%-59.8%

Notes:

**(i) Preferred Shares**

Under U.S. GAAP, the Company classified the Preferred Shares as mezzanine equity because they were redeemable at the holders' option upon the occurrence of certain deemed liquidation events and certain events outside of the Company's control. The Preferred Shares were recorded initially at fair value, net of issuance cost. The accretion to the respective redemption value of the Preferred Shares were recognized over the period starting from issuance date to the earliest redemption date.

Under IFRS, the Preferred Shares that were contingently redeemable at the holders' option were designated as financial liabilities at fair value through profit or loss, which were measured at fair value with the issuance cost recorded in general and administrative expenses. The amount of changes in the fair value of the financial liabilities attributable to changes in the credit risk of the financial liabilities was presented in other comprehensive (loss)/income and the remaining amount of changes in the fair value was presented in profit or loss.

Accordingly, the reconciliation includes (a) an increase of RMB17,934,738 in net loss attributable to ordinary shareholders and an increase of RMB634 in other comprehensive loss for the years ended December 31, 2021, respectively, resulting from fair value changes; and (b) a decrease of RMB588,457 in other comprehensive loss related with foreign currency translation adjustments for the years ended December 31, 2021.

All the Preferred Shares of the Company were converted into Class A ordinary shares upon the completion of the US IPO in June 2021. Therefore, there was no such reconciliation item in classification and measurement of Preferred Shares between U.S. GAAP and IFRS for the year ended December 31, 2022.

## 26. RECONCILIATION BETWEEN U.S. GAAP AND INTERNATIONAL FINANCIAL REPORTING STANDARDS *(CONTINUED)*

### (ii) Share-based compensation

Under U.S. GAAP, a performance target that may be met during or after the requisite service period is complete, such as the fulfilment of a qualified successful IPO, is a performance vesting condition. The fair value of the award should not incorporate the vesting probability of the performance condition, but rather should be recognized only if the performance condition is probable of being achieved. The cumulative share-based compensation expenses for the share options that have satisfied the service condition were recorded upon the completion of the Company's US IPO in June 2021. Under IFRS, the cumulative share-based compensation expenses for the share options that have satisfied the service condition were recorded when the performance condition related to the successful IPO became more likely than not to be achieved rather than being actually completed. Thus, share-based compensation expenses were recorded earlier under IFRS than under U.S. GAAP.

For share options and RSUs granted with service condition, the share-based compensation expenses were recognized over the vesting period using straight-line method under U.S. GAAP while the graded vesting method must be applied under IFRS.

Additionally, under U.S. GAAP, it is allowed to make an entity-wide accounting policy election to account for award forfeitures as they occur or by estimating expected forfeitures as compensation cost is recognized, and the Group has chosen to account for forfeitures when they occur. Under IFRS, a similar policy election isn't allowed; forfeitures must be estimated and share-based compensation expenses were recognized net of estimated forfeitures.

Accordingly, the reconciliation includes increases in operating cost and expenses of RMB150,860 and RMB281,373 for the years ended December 31, 2021 and 2022, respectively.

### (iii) Operating leases

Under U.S. GAAP, for operating leases, the amortization of the right-of-use assets and interest expenses related to the lease liabilities were recorded together as lease expenses, which resulted in a straight-line recognition effect over the respective lease terms.

Under IFRS, the amortization of the right-of-use assets was recognized on a straight-line basis while interest expenses related to the lease liabilities were recorded on the basis that the lease liabilities were measured at amortized cost with more expenses recognized in earlier years of each lease term. Additionally, the amortization of the right-of use assets and interest expenses related to the lease liabilities were presented in separate line items.

Accordingly, the reconciliation includes an increase in net loss of RMB2,724 for the year ended December 31, 2021, a decrease in net income of RMB3,472 for the year ended December 31, 2022, and decreases in right-of-use assets of RMB4,599 and RMB8,071 as of December 31, 2021 and 2022, respectively.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All amounts in thousands, except for share and per share data, unless otherwise noted)

## 26. RECONCILIATION BETWEEN U.S. GAAP AND INTERNATIONAL FINANCIAL REPORTING STANDARDS *(CONTINUED)*

### (iv) Listing expenses

Under U.S. GAAP, specific incremental issuance cost directly attributable to the offering of equity securities may be deferred and capitalized against the gross proceeds of the offering and presented in the shareholders' equity as a deduction from the proceeds.

Under IFRS, only those listing expenses considered directly attributable to the issuance of new shares to investors can be capitalized. Those expenses considered directly attributable to the listing of existing shares on a stock exchange were not qualified for capitalization and expensed as incurred instead.

Accordingly, in relation to the listing expenses incurred for the US IPO, the reconciliation includes an increase in general and administrative expenses of RMB22,592 for the year ended December 31, 2021, and an increase of RMB22,592 in additional paid-in capital as of December 31, 2021 and 2022.

### (v) Expected credit loss

Under U.S. GAAP, ASC 326 is adopted by the Group starting from 2022. Before the adoption of ASC 326, impairment losses for financial assets are not recognized until it is probable that a loss would be incurred based on events and conditions existing at the date of the financial statements. After the adoption of ASC 326, allowance for receivables are recognized using the current expected credit loss model upon initial recognition of financial assets.

Under IFRS, IFRS 9 were required to be adopted by the Group starting from January 1, 2018, which introduced an expected credit loss ("ECL") model for financial assets. Upon initial recognition, only the portion of lifetime ECL that results from default events that were possible within the next 12 months was recorded ("stage 1"). Lifetime expected credit losses were subsequently recorded only if there was a significant increase in the credit risk of the asset ("stage 2"). Once there was objective evidence of impairment ("stage 3"), lifetime ECL continued to be recognized, but interest revenue was calculated on the net carrying amount (that is, amortized cost net of the credit allowance).

Accordingly, the reconciliation includes an increase in general and administrative expenses of RMB242 for the year ended December 31, 2021. For the year ended December 31, 2022, there was no reconciliation for expected credit loss because the difference between allowance recognized under U.S. GAAP and that under IFRS was immaterial after the Group's adoption of ASC 326 in 2022.
