Exchange Rate

This announcement contains translations of certain RMB amounts into U.S. dollar ("US\$") amounts at specified rates solely for the convenience of the reader. Unless otherwise stated, all translations from RMB to US\$ were made at the exchange rate of RMB7.2960 to US\$1.00 on September 29, 2023 as set forth in the H.10 statistical release of the Federal Reserve Board. The Company makes no representation that the RMB or US\$ amounts referred could be converted into US\$ or RMB, as the case may be, at any particular rate or at all.

Non-GAAP Financial Measures

In evaluating the business, the Company considers and uses non-GAAP financial measures, such as calculated cash billings, adjusted net income, adjusted net income attributable to ordinary shareholders, adjusted basic and diluted net income per ordinary share attributable to ordinary shareholders and adjusted basic and diluted net income per ADS attributable to ordinary shareholders as supplemental measures to review and assess operating performance. The Company derives calculated cash billings by adding the change in deferred revenue to revenues. The Company uses calculated cash billings to measure and monitor sales growth because the Company generally bills its paid enterprise customers at the time of sales, but may recognize a portion of the related revenue ratably over time. The Company believes calculated cash billings provides valuable insights into the cash generated from sales and is a valuable measure for monitoring service demand and financial performance. The Company defines adjusted net income and adjusted net income attributable to ordinary shareholders by excluding the impact of share-based compensation expenses, which are non-cash expenses, from the related GAAP financial measures. The Company believes that these non-GAAP financial measures help identify underlying trends in the business that could otherwise be distorted by the effect of certain expenses and facilitate investors' assessment of the Company's operating performance.

The non-GAAP financial measures are not defined under U.S. GAAP, and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation or as a substitute for most directly comparable GAAP financial measures. The Company encourages investors and others to review its financial information in its entirety and not rely on a single financial measure.

A reconciliation of the non-GAAP financial measures to the most directly comparable GAAP financial measures has been provided in the table captioned "Unaudited Reconciliation of GAAP and Non-GAAP Results" at the end of this press release.
